

An aerial, top-down view of a swimming pool area. The pool is filled with clear, rippling blue water. Along the left edge of the pool, there is a row of lounge chairs on a tiled deck. Some chairs are empty, while one has a person lying on it. There are also small round tables between the chairs. To the left of the pool, there is a paved area with several white patio umbrellas and lounge chairs. The area is surrounded by lush greenery, including palm trees and other tropical plants. The overall scene is bright and sunny, with shadows cast across the deck.

# ABOUT

the**dronebook** is a commercial production venture led by Chris and Marisa, specializing in aerial, hospitality, travel, and lifestyle photography and film.

The duo realized early on that photo and film have to work hand in hand to create a cohesive outcome that speaks the same visual language. This approach led them to often produce both still images and videos when working on projects, frequently using drones to expand their creative possibilities. This places them in a select category of creatives who can master both techniques.

Their dramatic and cinematic style is a true reflection of their creative vision, with every shot being carefully composed to capture authentic and timeless, yet modern-aesthetic visuals that never feel overdone or contrived.

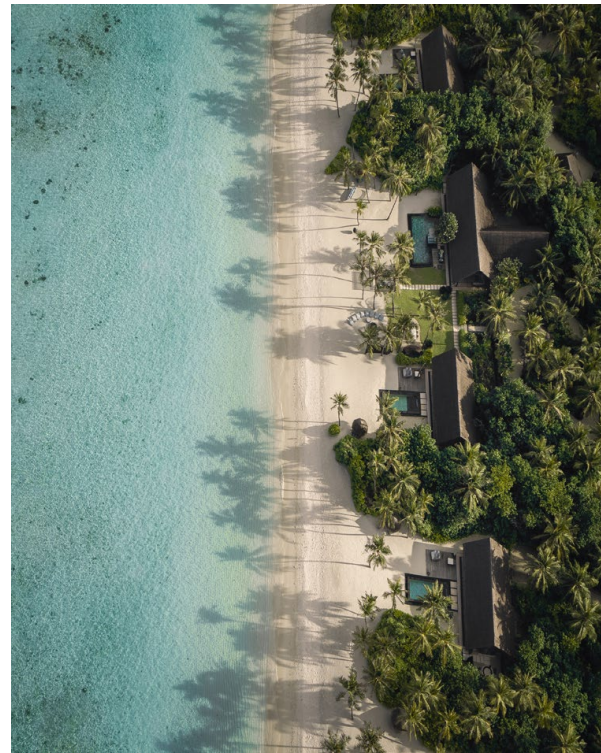

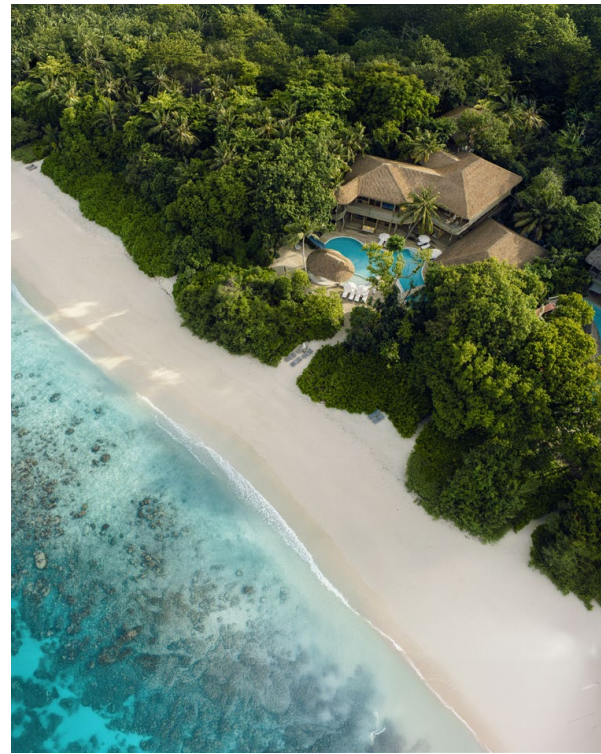

With German precision, thedronebook strives for excellence in every aspect of its work, resulting in a portfolio that exudes superior, timeless quality while still feeling fresh and contemporary.

Chris and Marisa combine their individual talents to provide a holistic approach to their productions. Together, the duo's love for their work shines through on every project. They thrive on direct communication and, with passionate commitment, their ultimate goal is to create impactful visuals that support their clients and partners in achieving their objectives and bringing their vision to life.
